level one

USB Hub and Fast Ethernet Combo Adapter

USB-0501

H/W Version: 1

### Fast and easy connection with USB

The LevelOne USB Hub and Fast Ethernet Combo Adapter allows you to connect to the internet easily through the built-in USB port on your laptop or gaming console. Now you no longer need to have an Ethernet connection in order to surf the web. This is an ideal solution for MacBook Air (100% Mac compatible) or other computers that may have wireless built-in but don't come with an Ethernet port. Sometimes you need to physically connect to a network cable to help transfer files or access secure information. The USB-0501 easily does the job, all through your USB port. The USB-0501 also combines a regular USB hub. So you can corral external USB peripherals, such as a MP3 player, digital camera, printer or pen drive. The USB-0501 establishes a direct point-to-point contact between the hub and the adapter that's plugged into your PC.

Reliable, efficient and standards compliant

The USB-0501 is USB 1.0, 1.1, and 2.0 compliant. It also follows the Ethernet standards set by the IEEE 802.3 and 802.3u, allowing you to take advantage of Fast Ethernet speeds of up to 100Mbps. This provides a strong backbone for any high-speed broadband connection to the internet as well as fast speeds for the Local Area Network file transfers.

Easy and Quick Installation

It supports hot inserting and swapping, meaning that the USB-0501 can be installed quick and easy without shutting down the computer or opening up the computer box to install new network interface cards. With low power consumption and mobility without the need of any additional power cords, notebook computer users greatly benefit from using this network interface adapter.

1. Power Port*
2. USB 2.0 Ports
3. Ethernet LAN Port
4. USB Connector

* Power adapter is not included.

Key Features

- High-Speed USB2.0, and 1.0 Standard Compliant
- Powered Through USB Port with Low Power Consumption
- Fast Ethernet Speeds of 10/100Mbps
- Automatically Negotiates 10/100Mbps Connections
- Supports Windows XP/Vista/7; Mac 10.1 up
- Supports Hot-Swap and Hot-Insert
- Quick and Easy Setup Wizard

Works Well With

WBR-6601
150Mbps *N* Wireless ADSL2+ Modem Router

WAP-6011
300Mbps *N_Max* Wireless Access Point

Technical Specification

USB
Upstream port x 1 (USB Type A plug)
Downstream port x 4 (USB Type A receptacles)
Compliance : USB1.1 & USB 2.0

LAN
RJ-45 x 1 (Ethernet 10BASE-T/Fast Ethernet 100Base-TX port)
Complies with the Full-duplex with flow control and Half-duplex with backpressure operation

Housing
Dimension: L94 mm x W35 mm x H17 mm
Weight : 46G

OS Support
Supports Windows XP/Vista/7; Mac 10.1 up

Working Environment
Operation temperature : 0 ~ 70 ℃
Storage temperature : -10 ~ 80 ℃
Certification : FCC, CE
